In a recent survey of our clients, Axiom earned a 49 Net Promoter Score (NPS), significantly greater than other business-to-business companies, as the average score for B2B companies is 25-30 industry-wide¹

NPS Methodology & Score

Our recent survey completed in November 2020 yielded an NPS score of 49² (scores range from -100 to +100).

HOW IT WORKS:

| | |
|------|--|
| 9-10 | Promoters loyal enthusiasts who will keep buying and refer others to fuel growth |
| 7-8 | Passives satisfied, but unenthusiastic customers |
| 0-6 | Detractors neutral to unhappy, have the potential to impede growth |

AXIOM RESULTS:

NPS is calculated by subtracting the percentage of detractors from the percentage of promoters.

My team's experiences with Axiom have been top-notch this year and we look forward to working together in coming years.
