The volume and velocity of litigation is increasing, creating potential disruption for corporate legal teams during challenging times.

The economic downturn magnifies the importance of rapid, positive litigation outcomes. Having the right talent in place enables businesses to efficiently manage claims investigations.

## OUR SOLUTIONS

Our litigation support can be structured to meet your needs, with a single secondee or a team solution, for projects and ongoing support in areas that include:

### PRE-SUIT INVESTIGATIONS

- Pre-suit research
- Claims and counterclaims investigations
- Document collection

### LITIGATION INQUIRIES

- Third-party request review
- Subpoenas, service of process, and demand letter response
- CMS case record maintenance

### DISCOVERY MANAGEMENT

- Document collection and preservation
- Discovery request response
- Witness preparation
